

SECURE EUROPE WITHOUT BORDERS

**Final Report
- Project Outcomes**

- Agreement on the project 15/NMF PL 15/14 **Secure Europe without borders** was signed between the Ministry of Internal Affairs and the Regional Police Headquarters in Łódź on the 30th of December 2014
- The project provided **11** specialistic trainings on computer forensics, dedicated to **90** police officers and employees from forensic laboratories and intelligence divisions as well as divisions for the fight against cybercrime from 6 police units
- Total project value **1 288 930,00 PLN**

Leader and Partners of the Project

Leader of the Project: Regional Police Headquarters in Łódź

Project Partners:

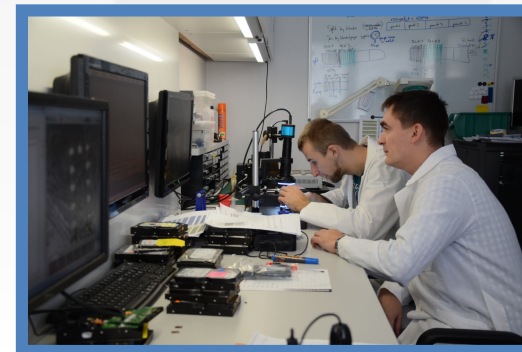

- Central Forensic Science Laboratory in Warsaw
- Regional Police Headquarters in Kraków
- Regional Police Headquarters in Bydgoszcz
- Regional Police Headquarters in Poznań
- Regional Police Headquarters in Radom

Project Objectives

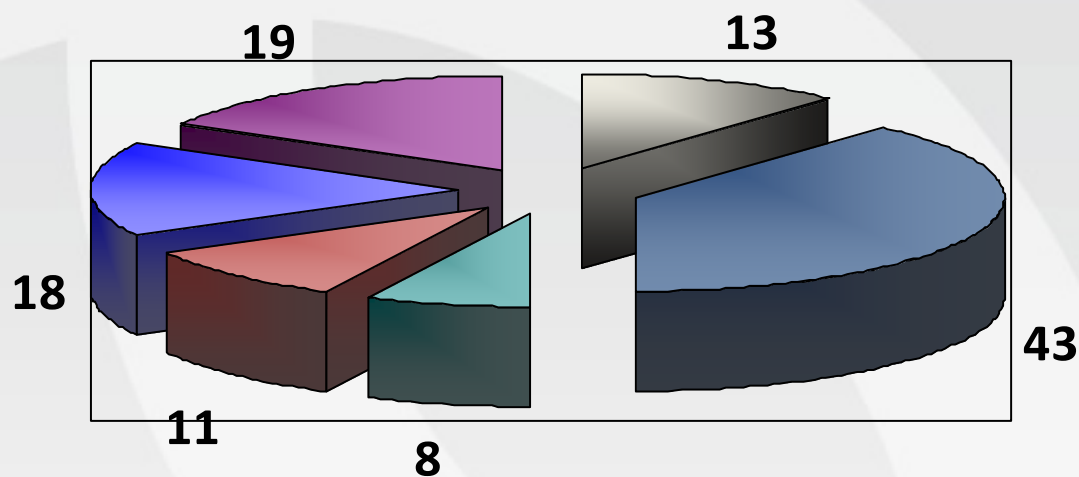

- Development and improvement of the structures, systems and technical equipment for improvement of implementing Schengen acquis.
- Extending the abilities of services to prevent and combat cross-border criminality and human trafficking
- Increasing the practical skills of project participants
- Strengthening the cooperation between project partners
- Training the specialists in the area of computer forensics
- Evolving common models of combating cross-border crimes

Project Indicators

Outcomes	Indicator	Base value	Final value	Source of verification
Development and improvement of structures, systems and technical equipment for improving the implementation of Schengen acquis	Number of trainings aiming at development and improvement of cooperation systems of police services	0	11	Training reports, invoices, acceptance protocols
Products	Indicator	Base value	Final value	Source of verification
Extending the knowledge of the trainees about the Schengen acquis and skills of using the equipment associated with Schengen	Numbers of officers and employees trained on substantial Schengen acquis and using the equipment related to Schengen	0	90	Attendance list, training reports, certificates
Increasing the knowledge of trainees about prevention methods as well as detecting and investigating cross – border and organized crimes	Number of services participating in the project aiming at improving potential of preventing and detecting cross – border and organized crimes	0	6	Letters of intent, partnership agreements, training reports
Enhancing the police technical equipment for combating cross-border and organized crimes	Quantity of purchased equipment	0	1	Acceptance protocol

Project Participants

Training Topics

No.	Training Topic	Total value of training contracts 680 431,00 zł	
		Provider	Contract value
1	Computer Forensics	Procertiv	176 400,00
2	Data Recovery	Net Computer	127 168,00
3	Invigilation with Elements of Computer Forensic	Net Computer	90 576,00
4	Hacking – Attack and Defence	Media	69 000,00
5	Automation of Reporting and VBA Data Analysis	Procertiv	17 600,00
6	Analysis of Mobile Devices – Logical Level	Net Computer	79 188,00
7	Analysis of Mobile Devices – Physical Level		
8	Video Forensics	Procertiv	12 000,00
9	Finger – Print Technology and Video Record	Procertiv	52 500,00
10	Mechanoscopy 1 – Reading Data from ECUs	BETiS	30 000,00
11	Machanoscopy 2 – Disclosure of Unauthorised Openings Traces of Certified Equipment and New Vehicle Models	Systemy zabezpieczeń Józef Matyjas	25 999,00

Training Participants According to Police Units

No.	Training Topic	Project Participants According to Police Units						
		Łódź	CFSL	Radom	Kraków	Poznań	Bydgoszcz	Total
1	Computer Forensics	4	3	3	3	3	8	24
2	Data Recovery	3	2	1	-	1	1	8
3	Invigilation with Elements of Computer Forensic	17	2	3	3	3	9	37
4	Hacking – Attack and Defence	16	3	3	3	3	9	37
5	Automation of Reporting and VBA Data Analysis	8	-	-	-	-	-	8
6	Analysis of Mobile Devices – Logical Level	7	1	1	1	1	1	12
7	Analysis of Mobile Devices – Physical Level							
8	Video Forensics	8	-	-	-	-	-	8
9	Finger – Print Technology and Video Record	12	-	3	4	8	8	35
10	Mechanoscopy 1 – Reading Data from ECUs	7	3	4	2	2	2	20
11	Machanoscopy 2 – Disclosure of Unauthorised Opening Traces of Certified Equipment and New Vehicle Models	7	4	4	4	5	3	27
Total		89	18	22	20	26	41	216

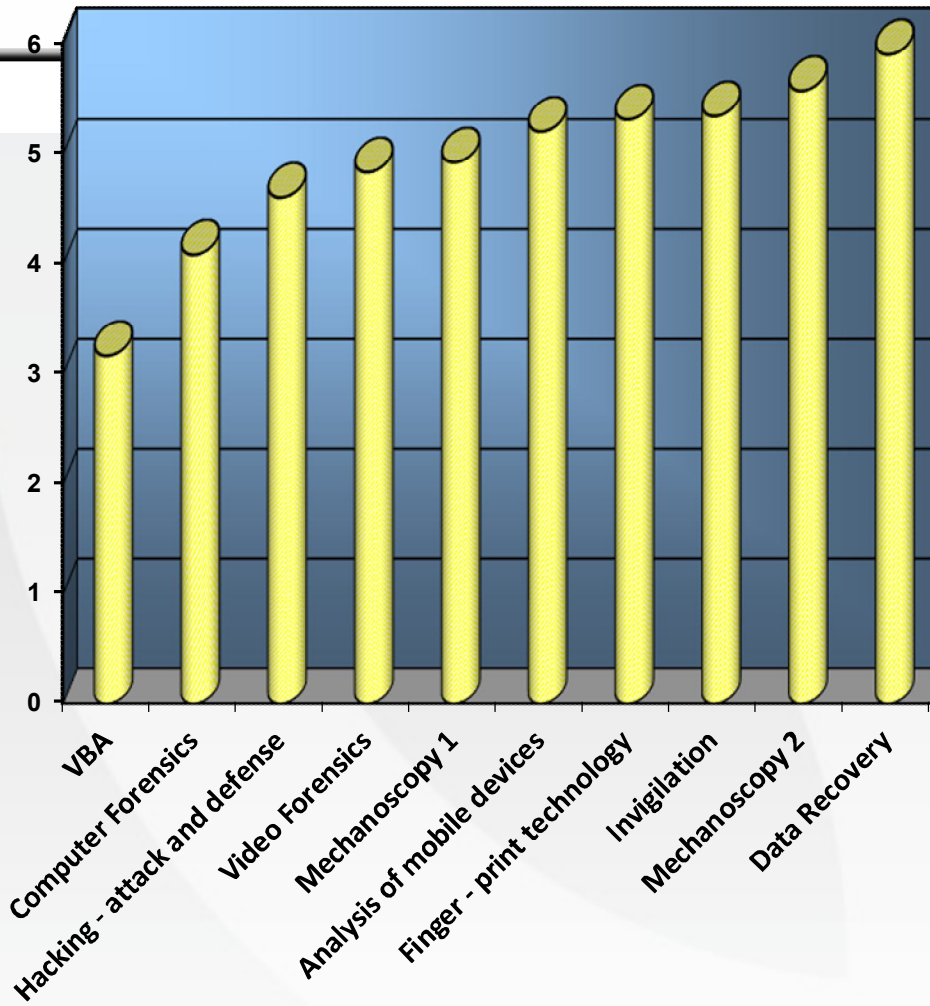

Project Evaluation

No.	Questions	Average score
1	How do you rate the value of knowledge transferred by the trainer?	5,3
2	How much has the training improved your knowledge about the subject?	5,01
3	To what extent will you be able to take advantage of the newly gained knowledge in practice?	4,45
4	How much has the training content met your expectations?	4,67
5	Has the equipment provided by the training company met the training needs?	5,02

Satisfaction Rate – Evaluation Outcomes

Best Evaluated Trainings

1) Data Recovery (8 participants, training company: Net Computer, contract value: 127 168,00 zł, 8 training days)

2) Disclosure of Unauthorised Opening Traces of Certified Equipment and New Vehicle Models (27 participants, training company: Systemy Zabezpieczeń J. Matyjas, contract value: 25 999,00 zł, 3 training days)

3) Invigilation with Elements of Computer Forensics (37 participants, training company: Net Computer, contract value: 90 576,00 zł, 4 training days)

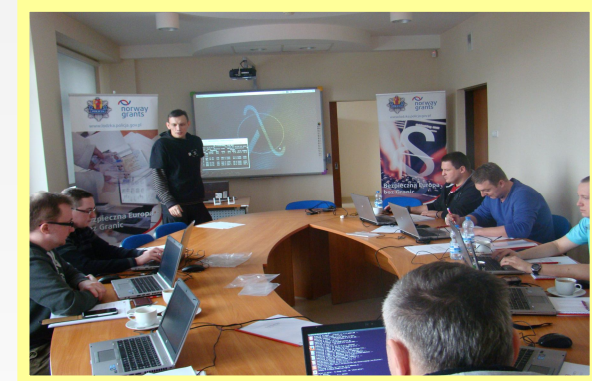

Analysis of Mobile Devices – Logical and Physical Levels

Hacking – Attack and Defence

Reading Data from ECUs

Project Outcomes

- Strengthening competencies associated with combating cross – border and organized crimes
- Improving public security and protection of Schengen acquis
- Increasing efficiency of responding to threats
- Enhancing cooperation between project partners
- Strengthening Polish position among European law enforcement partners
